MEMORANDUM TO SELECTED DEPARTMENT AND AGENCY HEADS

FROM: JOSEPH R. WRIGHT, JR.
DEPUTY DIRECTOR

SUBJECT: FEDERAL PUBLICATIONS AND AUDIOVISUALS

The President has repeatedly stated his goal of making the Government responsive to the people and saving tax dollars. These savings must come not only from program changes, but also from better agency cost control systems and other management reforms. The Reform '88 Initiatives currently underway are a major step toward achieving the President's goal. This includes the Reform '88 Publications and Audiovisuals initiative, which is being expanded by setting new government-wide goals.

We are therefore requesting that your agency:

1. Specifically identify eliminations, consolidations, and other cost reductions that already have been implemented by marking on the attached list of your agency's publications the eliminations, consolidations, and other cost reductions that already have been implemented. Also list any publications added since the inventory was developed from information submitted by your agency, and correct any errors on the printout (see Attachment 1).
2. Identify additional eliminations, consolidations, and other cost reductions to achieve your agency's share of the new government-wide goal (which is contained in Attachment 2).
3. Reconcile differences in your agency's reports on publications and audiovisuals. The differences are presented in Attachment 3.

Please transmit your agency's response to the Director by August 30, 1983. We look forward to your continued cooperation in fulfilling the President's objective in this important Reform '88 initiative. If your staff have any questions, please have them call Bill McQuaid in our Management Reform Division (395-5653).
